

Setting up RSA Cat links in OCLC First Search (SILC)

Revision 2 (4 May 2009)

Instructions for linking from OCLC first search (SILC) to the new RSA Cat. We added screenshots by popular request.

1. Log in to FirstSearch OCLC Admin Module. <http://firstsearch.oclc.org/admin>

2. Click on the linking tab at the top.

Links to Your Library's Catalog Save Changes

Library Catalog Entry

Catalog Entry Screen URL:
Enter the URL for your catalog's opening page or initial search screen. Test

Catalog Entry Screen Link Text:
Enter the link text that users will click to go to your catalog's opening page or initial search screen. Retain the default text or customize it as you prefer. The link text should convey to your users that clicking it will simply take them to your catalog, not actually search it.

Library Catalog Search

ISBN Search Results URL:
Enter the URL for the screen that displays the results of an ISBN search of your catalog. Test

ISSN Search Results URL:
Enter the URL for the screen that displays the results of an ISSN search of your catalog. Test

e-Serial ISSN Search Results URL:
Enter the URL for the screen that displays the results of an ISSN search for electronic serials. Test

Display link for print ISSN if link for e-Serials ISSN is blank: Yes

OCLC Number Search Results URL:
Enter the URL for the screen that displays the results of an OCLC Number search of your catalog. Test

Add leading zeros to the OCLC Number search term: Yes

OCLC Number Prefix:
 Do not add prefix to the OCLC Number
 Add ocn/ocm prefix based on the OCLC Number
 Add the following custom prefix to all OCLC Numbers

Catalog Search Results Link Text:
Enter the link text that users will click to search your catalog with the ISBN/ISSN or OCLC Number from the FirstSearch record. Retain the default text or customize it as you prefer. The link text should convey to your users that clicking it will initiate a search of your catalog.

Save Changes

4. Change the following entries (noted by red arrows or circles above):

A) Catalog Entry Screen URL: - change this to:

http://rsacat.alsrsa.org/uhtbin/cgisirsi/x/0/0/57/49?user_id=YOUR_LIBRARY_CODE

Put your library code or search group code in the place of the yellow highlighting. This should be the same link you give to your patrons and have on your library homepage. If you are not sure what your link is, there is a list of links starting on the next page of this document. Note: your library code will end in WEB and is listed in the list of links below.

For example, Alpha Park (AP_ALPHAPK) would be entered like this:

http://rsacat.alsrsa.org/uhtbin/cgisirsi/x/0/0/57/49?user_id=AP_ALPHAPKWEB

B) Then you need to change the ISBN Search Results URL link to:

http://rsacat.alsrsa.org/uhtbin/cgisirsi/x/0/0/57/5?user_id=YOUR_LIBRARY_CODE&searchdata1=

Insert your library code or search group where it says library code.

For example, Alpha Park (AP_ALPHAPK) would be entered like this.

http://rsacat.alsrsa.org/uhtbin/cgisirsi/x/0/0/57/5?user_id=AP_ALPHAPKWEB&searchdata1=

C) Then you need to change the ISSN Search Results URL link to the same link as the ISBN link you used in step B.

D) Finally, change the OCLC Number Search Results URL link to the same link as the ISBN link you used in step B. Ensure the “add leading zeros to the OCLC Number search term” checkbox is checked. In the OCLC Number Prefix section, click the “Add ocn/ocm prefix based on the OCLC Number” radio button is selected.

Note: The links for the ISBN, ISSN, and OCLC searches are exactly the same.

5. Click the test button next to each link. You should be taken to the catalog showing the results of the search for that section (based on the number in the box below the link). If you get a page asking for you to log in, the link you entered is incorrect. Each test will return one or more results.

6. Click on save changes. You should now be able to search SILC and have it return item information from the RSA Cat.

Here are links to each individual library in RSA as well as links to groups of libraries. The list is sorted by library type: Public, Schools, Academic, and Special. Each line starts with the link on the left and the description of the library searched on the right. The first line shows the difference between the link (in red) and the description (in black). The part after the “user_id=” is your library’s code required to identify your library and ends with “web”.
